Team:	Team 03
Project:	Beap Engine
Date created:	1/26/2024
Date updated:	1/27/2024

Test Case ID	Test Case Description	Implementation Status	Test Type	Automated/Manual Test	Test Date Creation	Test Last Runned	Expected Behaviour	Current Behaviour	Passed/ Failed
T1.1	Render File Upload Page Components (text)	Implemented	Unit	Automated	1/27/2024	1/27/2024	Components from File Upload Page are rendered	As expected	Passed
T1.2	Render Home Page Components (text)	Implemented	Unit	Automated	1/27/2024	1/27/2024	Components from Home Page are rendered	As expected	Passed
T1.3	Render ProcessData Page Components (text)	Implemented	Unit	Automated	1/27/2024	1/27/2024	Components from File Upload Page are rendered	As expected	Passed
T1.4	Render Navigation Bar	Implemented	Unit	Automated	1/27/2024	1/27/2024	Navigation bar is rendered	As expected	Passed
T1.5	Navigation links exist	Implemented	Unit	Automated	1/27/2024	1/27/2024	Links to navigate to different pages are rendered into navigation bar	As expected	Passed
T1.6	Contents of File drop zone inside upload page	Implemented	Unit	Automated	1/27/2024	1/27/2024	File drop zone component contents rendered properly	As expected	Passed
T1.7	Controls of File drop zone	Implemented	Unit	Automated	1/27/2024	1/27/2024	Controls of file drop zone component work as intended	As expected	Passed
T1.8	Navigation Bar to File Upload Page: Use the navigation Bar to go to the Upload Page	Implemented	Integration	Automated	1/27/2024	1/27/2024	Link at the Navigation Bar takes you to the Upload Page	As expected	Passed
T1.9	Navigation Bar to Processed Files: Use the navigation Bar to go to the Processed Files Page	Implemented	Integration	Automated	1/27/2024	2/8/2024	Link at the Navigation Bar takes you to Processed Files Page	As expected	Passed
T1.10	Navigation Bar to Predicted Files: Use the Navigation Bar to go to the Predicted Files Page	Implemented	Integration	Automated	1/27/2024	2/8/2024	Link at the Navigation Bar takes you to the Predicted Files Page	As expected	Passed
T1.11	Navigation Bar to Logout: Use the Navigation Bar to go to the Logout Page	Implemented	Integration	Automated	1/27/2024	2/8/2024	Link at the Navigation Bar takes you to the LogoutPage	As expected	Passed
T2.1	Can upload an xml file on the file upload page using the dialogue box	Implemented	Integration	Manual	2/8/2024	2/8/2024	The file name uploaded is displayed under the dropzone controls	As expected	Passed
T2.2	Selecting the other radio button removes uploaded files	Implemented	Integration	Manual	2/8/2024	2/8/2024	the file names are removed from the list under the drop zone	As expected	Passed
T2.3	Can drag an xml file into the dropzone on file upload page	Implemented	Integration	Manual	2/8/2024	2/8/2024	The dragged file gets added to the list of files under the drop zone	As expected	Passed
T2.4	Click on the Dropzone dialogue box	Implemented	Integration	Manual	2/8/2024	2/8/2024	Should only see xml and json files	As expected	Passed
T2.5	Upload an empty xml file	Implemented	Integration	Manual	2/8/2024	2/8/2024	the file should get added to the list, but with 0 bytes	As expected	Passed
T2.6	Playwright Navbar tests: go to every page on the nav bar and check that the correct page url is achieved	Implemented	System	Automated	2/3/2024	2/10/2024	Playwright Passes the tests	As expected	Passed

					ID	Description	Status	Test Type	Method	Start Date	End Date	Expected Result	Actual Result	Pass/Fail
					T2.7	Playwright Homepage Test: checks that all the expected elements are displayed on the homepage	Implemented	System	Automated	2/3/2024	2/10/2024	Playwright Passes the tests	As expected	Passed
					T2.8	Playwright File Upload Page tests: do the radio buttons work, is everything displayed	Implemented	System	Automated	2/9/2024	2/10/2024	Playwright Passes the tests	As expected	Passed
					T2.9	Playwright Processed Data Page: tests that all expected elements are displayed and that the radio buttons work properly, and that go to predicted files button works properly	Implemented	System	Automated	2/9/2024	2/10/2024	Playwright Passes the tests	As expected	Passed
					T2.10	Playwright Predicted Files page: check that all elements are displayed	Implemented	System	Automated	2/9/2024	2/10/2024	Playwright Passes the tests	As expected	Passed
					T3.1	Making Sure the help dropdown button renders	Implemented	Unit	Automated	2/23/2024	2/23/2024	The Help Button is rendered	As expected	Passed
					T3.2	Login: should return mapped data upon successful login	Implemented	Unit	Automated	2/21/2024	3/3/2024	Mapped data is returned correctly	As expected	Passed
					T3.3	Login: should throw an error upon failed login	Implemented	Unit	Automated	2/21/2024	3/3/2024	An exception is thrown when login fails	As expected	Passed
					T3.4	Logout: Logout: should logout successfully	Implemented	Unit	Automated	2/21/2024	3/3/2024	User log outs correctly	As expected	Passed
					T3.5	Logout: should throw an error if fails	Implemented	Unit	Automated	2/21/2024	3/3/2024	An exception is thrown when logout fails	As expected	Passed
					T3.6	Sign Up:should sign up successfully	Implemented	Unit	Automated	2/21/2024	3/3/2024	User sign ups correctly	As expected	Passed
					T3.7	Sign Up: should throw an error if sign up fails	Implemented	Unit	Automated	2/21/2024	3/3/2024	An exception is thrown when logout fails	As expected	Passed
					T3.8	useIsUserLoggedIn: returns true when user is logged in and expiresAt is in the future	Implemented	Unit	Automated	2/21/2024	3/3/2024	Returns the expected value when user is logged in	As expected	Passed
					T3.9	useIsUserLoggedIn: returns false and clears storage and cookie when expiresAt is in the past	Implemented	Unit	Automated	2/21/2024	3/3/2024	Returns the expected value the login session has passed	As expected	Passed
					T3.10	useLogin:should handle login successfully	Implemented	Unit	Automated	2/21/2024	3/3/2024	Hook should log in user	As expected	Passed
					T3.11	useLogin: should handle login when it errors	Implemented	Unit	Automated	2/21/2024	3/3/2024	Hook should not work when user was not logged successfully	As expected	Passed
					T3.12	useLogout: should handle logout successfully	Implemented	Unit	Automated	2/21/2024	3/3/2024	Hook should log out the user	As expected	Passed
					T3.13	useLogout: should handle logout when it errors	Implemented	Unit	Automated	2/21/2024	3/3/2024	Hook should handle when log out fails	As expected	Passed
					T3.14	useSignup: should handle signup successfully	Implemented	Unit	Automated	2/21/2024	3/3/2024	Hook should sign up user	As expected	Passed
					T3.15	useSignup: should handle signup when it errors	Implemented	Unit	Automated	2/21/2024	3/3/2024	Hook should handle when sign up fails	As expected	Passed
					T3.16	Processed Data page	Not Implemented	System	Automated	2/28/2024	3/3/2024	Components from processed data page are displayed and function as expected	NA	N/A
					T3.17	useDeleteFile hook: should call the delete file api	Implemented	Unit	Automated	2/28/2024	2/28/2024	useDeleteFile hook should call the delete file api with the correct parameters and handle errors	As expected	Passed

		T3.18	useListGetUploadedFiles hook test	Implemented	Unit	Automated	2/28/2024	2/28/2024	useListUploadedFile hook should call the listUploadedFile api route and handle errors successfully	As expected	Passed
		T3.19	useGetProcessedFiles hook test	Implemented	Unit	Automated	2/28/2024	2/28/2024	useGetProcessedDataList hook should call the getProcessedDataList api route and handle errors successfully	As expected	Passed
		T3.20	useProcessFile: handle predict sucessfully	Implemented	Unit	Automated	2/28/2024	2/28/2024	usePredictFile hook should call the predictFile api properly and handle errors successfully	As expected	Passed
		T3.21	usePredictFile: handle predict when it errors	Implemented	Unit	Automated	2/28/2024	3/3/2024	usePredictFile hook should handle errors gracefully	As expected	Passed
		T3.22	useGetUploadedFiles: should get uploaded files successfully	Implemented	Unit	Automated	2/28/2024	3/3/2024	useGetUploadedFiles : hook gets the uploaded file correctly	As expected	Passed
		T3.23	useGetUploadedFiles: should get uploaded files when it errors	Implemented	Unit	Automated	2/28/2024	3/3/2024	Hook should handle case when file was deleted	As expected	Passed
		T3.24	User should be able to log In and interact witht the page	Not Implemented	System	Manual	03/03/2024	3/3/2024	People can log in and navigate through the page	As expected	Passed
		T3.25	User should be able to Upload files	Not Implemented	Integration	Manual	3/3/2024		User should be able to upload the correct file types	NA	Failed
		T3.26	User should not be able to upload incorrect file types	Not Implemented	Integration	Manual	3/3/2024		User should not be able to upload whatever file to the system	NA	Failed
