ID3: Retrospective

- **"How do you feel the deliverable emerged overall?"**

  - Over committed tasks and underestimated amount of work we planned for this deliverable

- **"What actions/practices helped our progress in producing a quality deliverable?"**

  - Pair Programming

  - Planning Poker was useful was useful to give the whole team what everyone was doing

- **"What actions/practices hindered our ability to produce a quality deliverable?"**

  - Lack of communication between leads and team members

  - Assigned Task before having the planning poker

- **"What process innovations or steps could we take that would help us the group do even better next time"? /What can we do better next time?**

  - Assigned Task after having the planning poker

  - Better communication between leads and team members

  - Devs and testers review feature (issue) requirements then QA can start writing tests earlier as we

  - Having a road map on what we want to do for the next two IDEs
